

NUTRIENT CHAIN

RE-THINKING AGRICULTURE WITHOUT BOUNDARIES IN AFRICA

nutrientchain.com

Traditional agricultural methods lead to:

Limited
Market Access
for Farmers

High dependence
on food imports

Inefficient
supply chain
management

Poor access
to financing

A Unified Digital ecosystem connecting farmers with consumers utilizing FinTech & Blockchain Solutions to create:

1

Access to new markets via in-app demand and supply services

2

Efficient farm and supply chain management

3

An escrow system for distribution and monitoring

4

Access to local and international funding opportunities for Farmers

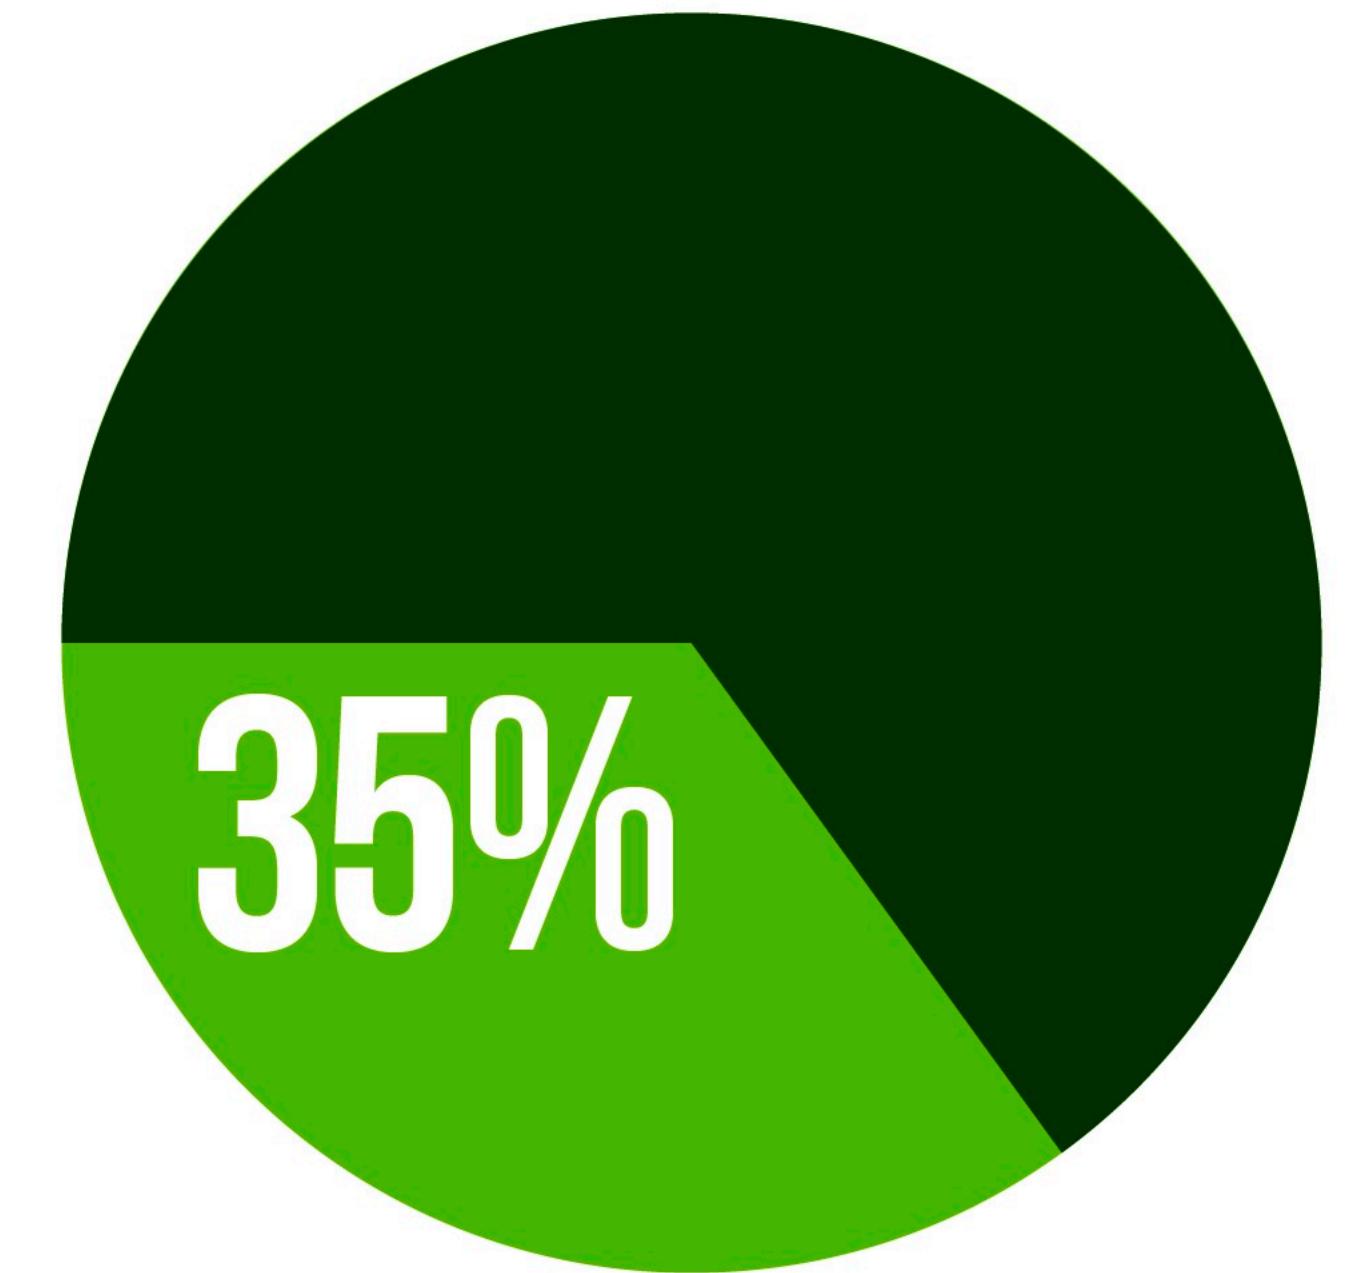

The global digital agriculture market was valued at USD 22.0 billion in 2023 and is projected to reach USD 36.0 billion by 2028 at a 10.3% CAGR.

\$36B

(2028)

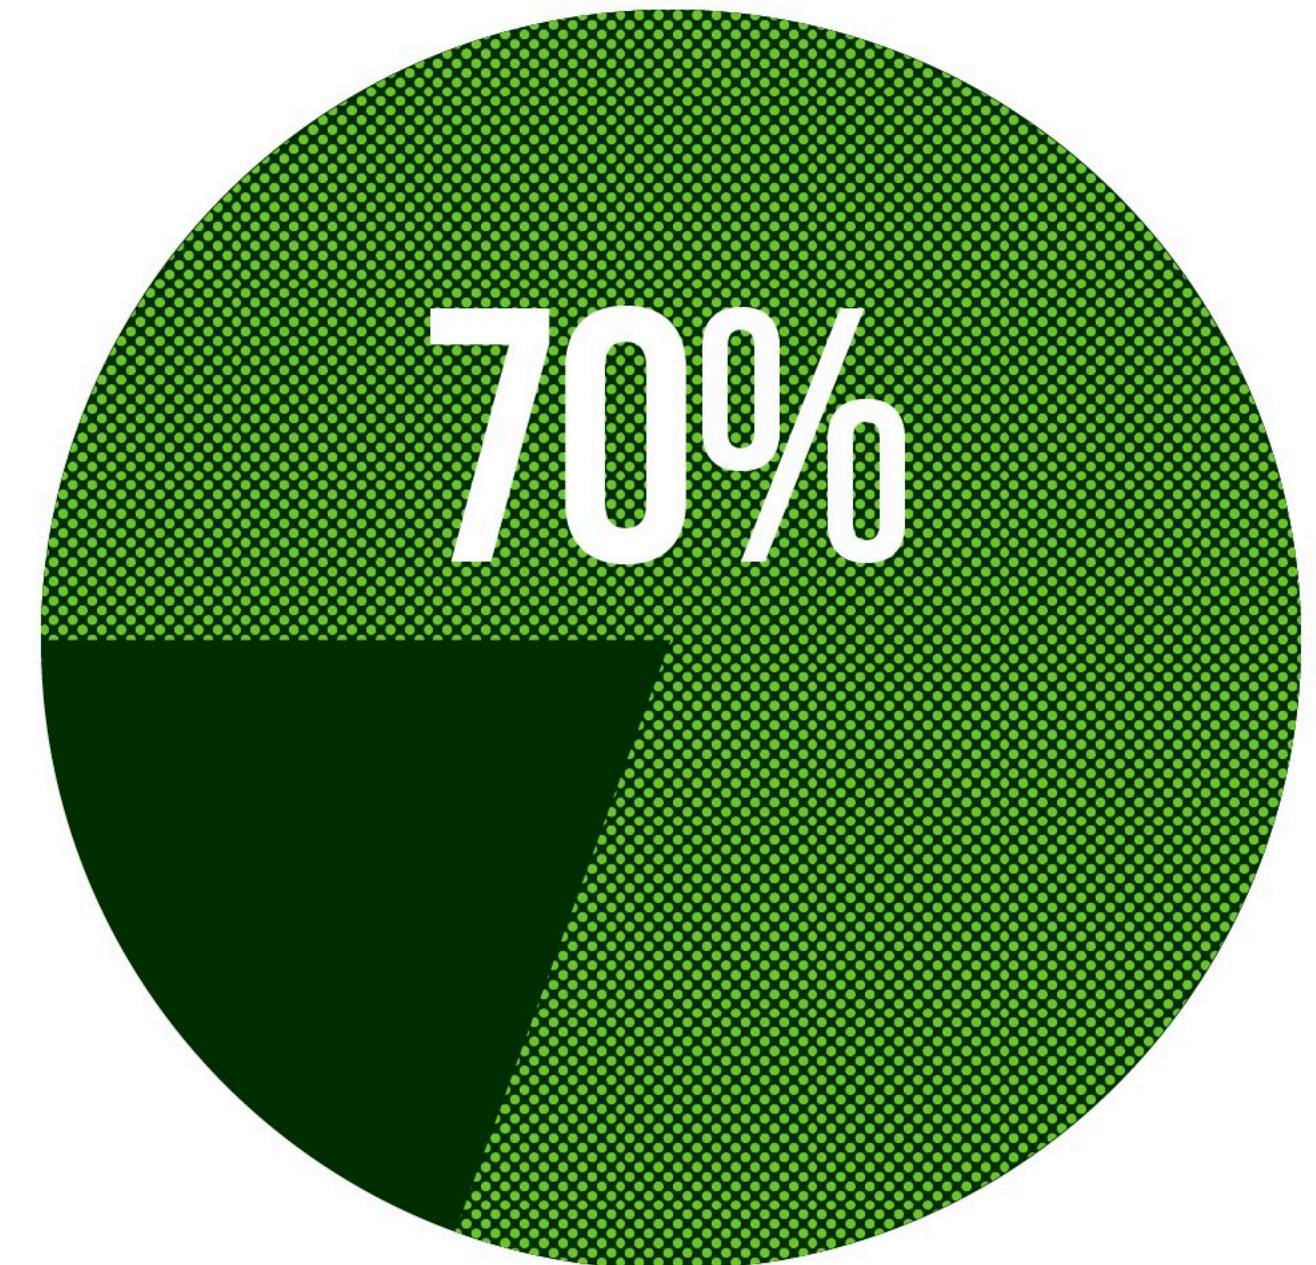

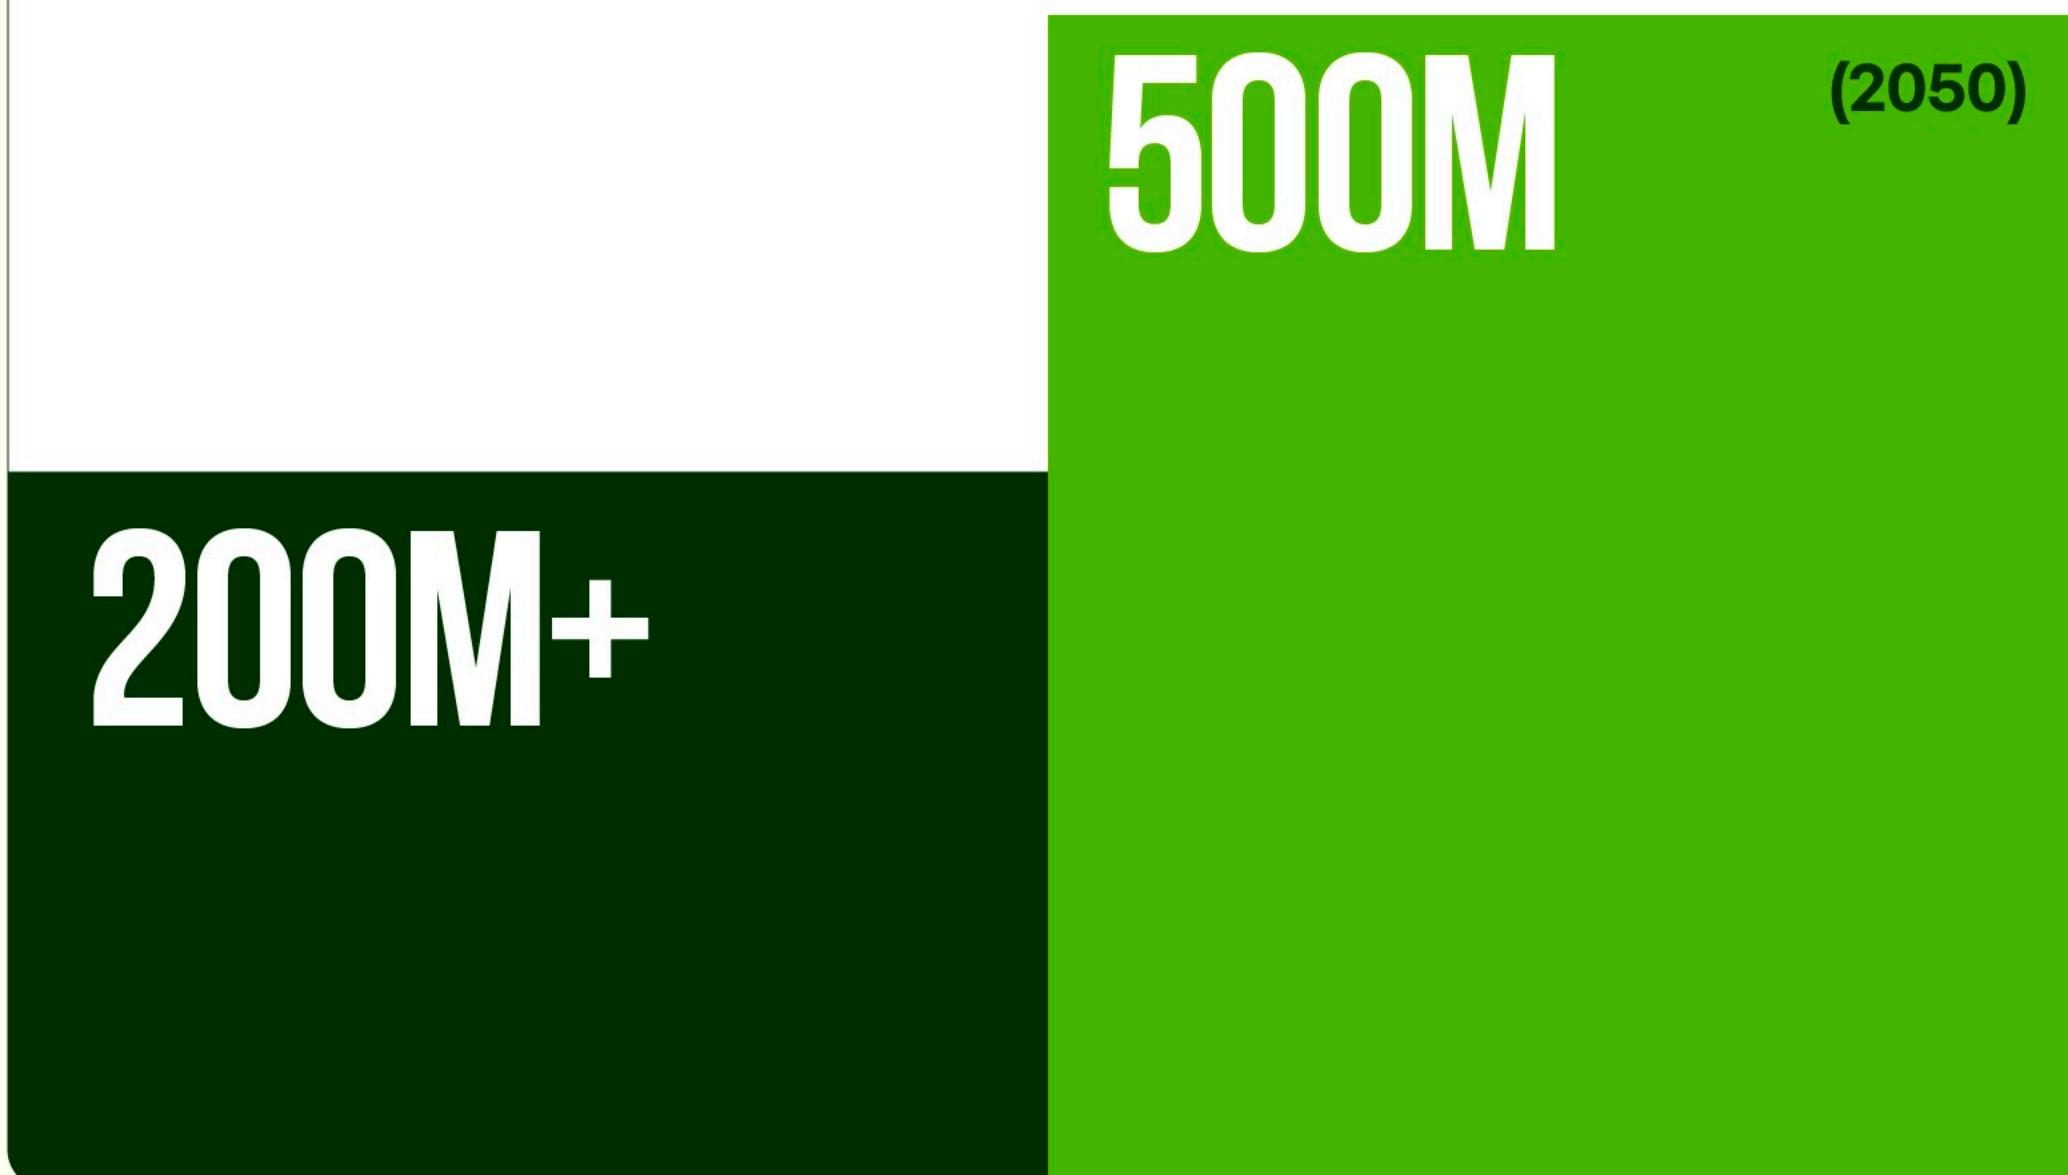

\$22B

(2023)

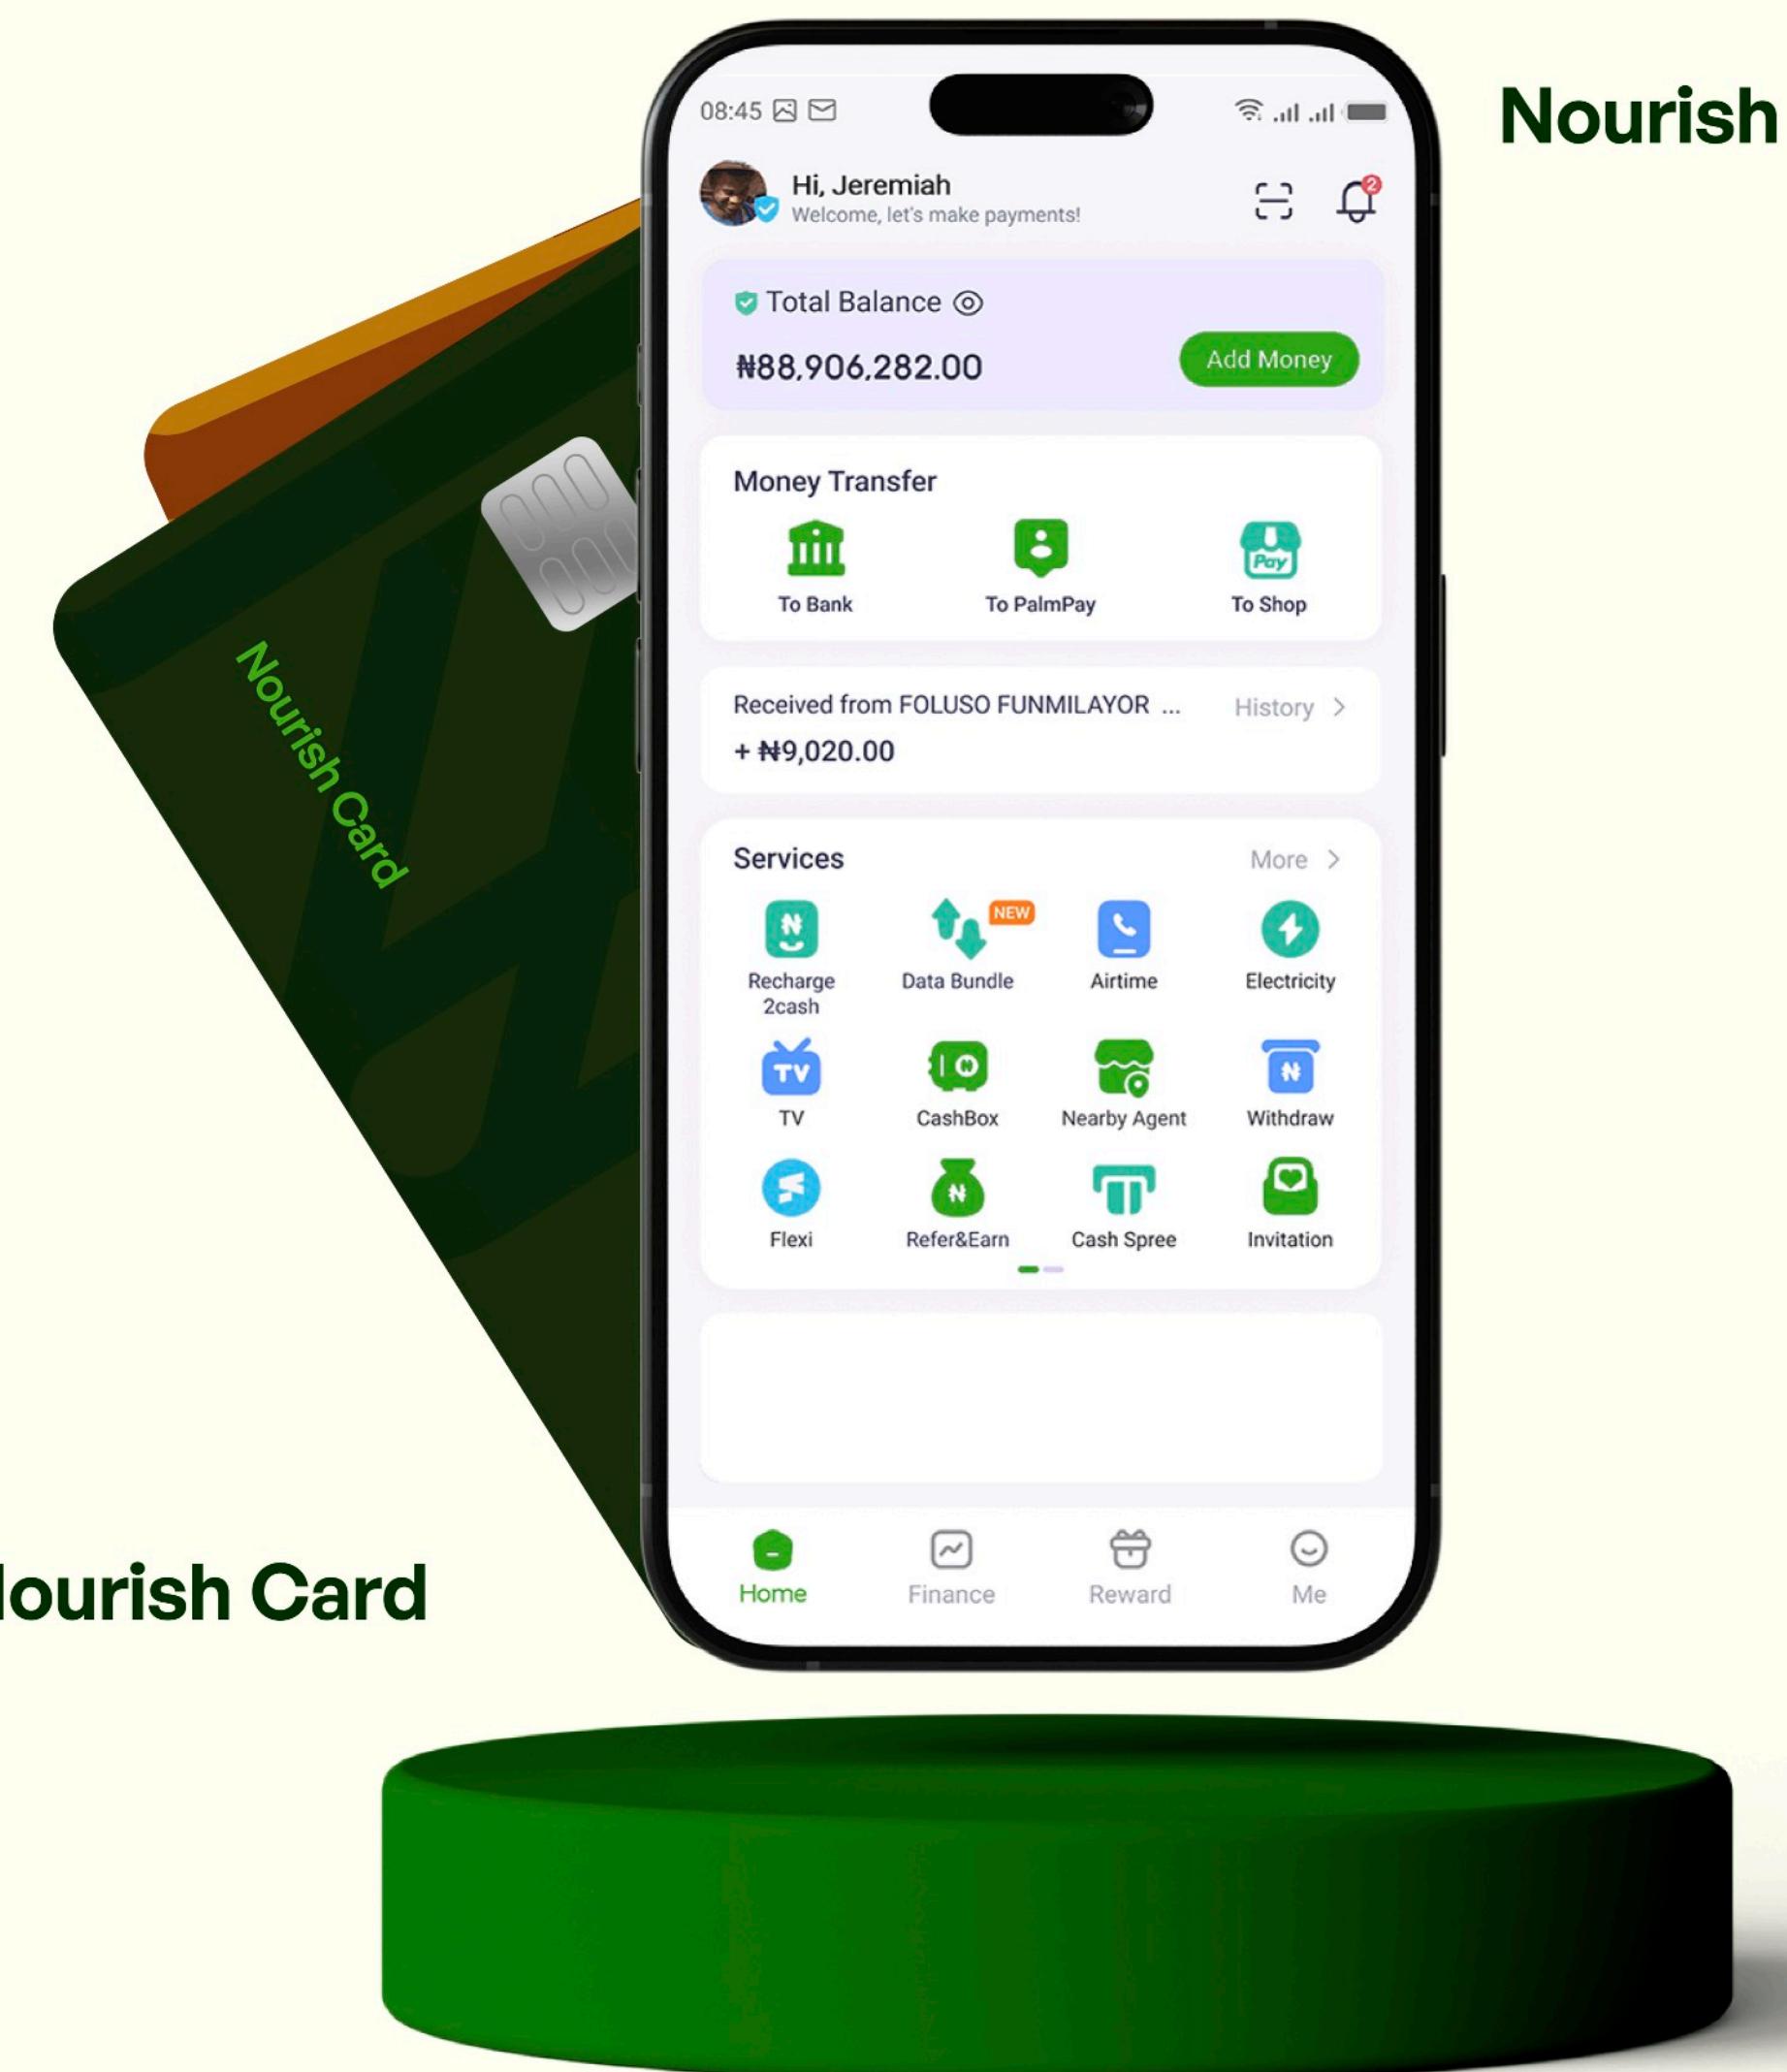

of Nigeria's labour force involved in agriculture

With a feeding population of
200+ Million in Nigeria, estimated to
reach 500 Million by 2050

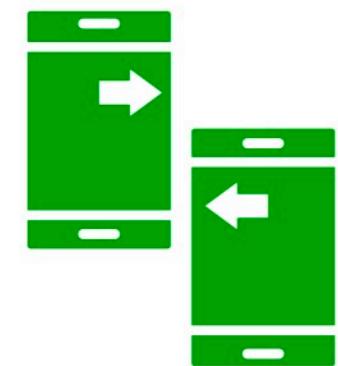

Nigeria is estimated to have about
34.5 million farmers representing about
70% of the country's labour force

Nourish App
